In the Matter of:

APPLICATION OF CELLULAR INFORMATION SYSTEMS OF)	
FLORENCE, INC., AN ALABAMA CORPORATION, FOR)	
ISSUANCE OF A CERTIFICATE OF PUBLIC CONVENIENCE)	
AND NECESSITY TO CONSTRUCT AN ADDITIONAL CELL)	
FACILITY IN THE KENTUCKY RURAL SERVICE AREA NO. 4)	CASE NO.
WHICH INCLUDES SPENCER, ANDERSON, HARDIN, NELSON,)	97-485
WASHINGTON, MERCER, MARION, LARUE, GREEN, AND)	
TAYLOR COUNTIES IN KENTUCKY)	
(THE LEBANON RELOCATION CELL FACILITY))	

O R D E R

On December 3, 1997, Cellular Information Systems of Florence, Inc. ("Cellular Information Systems") filed an application seeking a Certificate of Public Convenience and Necessity to build and operate a cellular radio telecommunications facility for Rural Service Area No. 4 ("RSA No. 4"). RSA No. 4 includes Anderson, Green, Hardin, Larue, Marion, Mercer, Nelson, Spencer, Taylor, and Washington counties. Cellular Information Systems has requested authorization to construct a cell site in Marion County. Cellular Information Systems was previously granted authority to operate a cellular radio telecommunications system in RSA No. 4 in Case No. 96-491.¹

¹ Case No. 96-491, The Joint Application of PriCellular Corporation, a Delaware Corporation, Cellular Information Systems of Florence, Inc., an Alabama Corporation and Horizon Cellular Telephone Company of Central Kentucky, L.P., a Delaware Limited Partnership for the Approval of the Acquisition of the Assets of Horizon Cellular Telephone Company of Central Kentucky, L.P., a Delaware Limited Partnership and for Acceptance of Adoption of Tariff.

The proposed cell site consists of a 350-foot or less guyed antenna tower to be located at Thornton Smith Road in Lebanon, Marion County, Kentucky ("the Lebanon relocation cell site"). The coordinates for the Lebanon relocation cell site are North Latitude 37° 32' 36" by West Longitude 85° 15' 34".

Cellular Information Systems has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the Lebanon relocation cell site. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and a Registered Professional Engineer has certified the plans.

Pursuant to KRS 100.324(1), the Lebanon relocation cell site's construction is exempt from local zoning ordinances; however, Cellular Information Systems notified the Marion County Judge/Executive of the pending construction. Cellular Information Systems has filed applications with the Federal Aviation Administration ("FAA") and the Kentucky Airport Zoning Commission ("KAZC") seeking approval for the construction and operation of the Lebanon relocation cell site. Both applications are pending.

Cellular Information Systems has filed notices verifying that each person who owns property within 500 feet of the Lebanon relocation cell site has been notified of the pending construction. The notice solicited any comments and informed the property owners of their right to intervene. In addition, notice was posted in a visible location on the proposed site for at least two weeks after Cellular Information Systems' application was filed.

On February 10, 1998, the Commission granted Mark and Bernadette O'Daniel intervenor status and granted Charles F. Montgomery intervenor status on March 16, 1998.

On July 2, 1998, Charles Montgomery informed the Commission by letter that he wished to withdraw from the case, as he no longer opposes construction of the tower. On July 28, 1998, the Commission offered to schedule a hearing if the intervenors requested one within 10 days. To date, the Commission has not received a hearing request.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, Cellular Information Systems should notify the Commission if it does not use this antenna tower to provide cellular radio telecommunications services in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by Cellular Information Systems.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that Cellular Information Systems should be granted a Certificate of Public Convenience and Necessity to construct and operate the Lebanon relocation cell site in RSA No. 4 under its previously approved tariff.

IT IS THEREFORE ORDERED that:

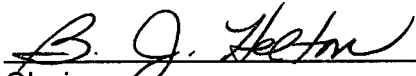

1. Cellular Information Systems is granted a Certificate of Public Convenience and Necessity to construct and operate the Lebanon relocation cell site.

4. Cellular Information Systems shall file a copy of the final decisions regarding the pending FAA and KAZC applications for this cell site construction within 10 days of receiving these decisions.

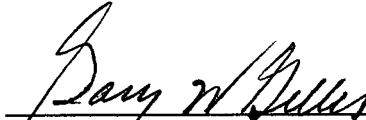

3. Cellular Information Systems shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 2nd day of September, 1998.
